GLORIOUS SHOWROOM GRAND OPENING CEREMONY

November 24, 2017

Previously, on November 24, 2017, Glorious Showroom opening ceremony occurred under the participation of all Glorious' valued Partners and Employees.

As presented by Mr. Kong Yuk Kan – our General Director, Glorious Showroom came from the desire of making a space where to demonstrate Glorious as an IT company with the idea to promote the smart and green concept, simultaneously, the showroom is also a center to demonstrate how to combine our business and technology with the Maritime Silk Road economic policy and work with ASEAN community. Above all, we are proud to be the pioneer and leader in bringing the high technology closer to our ordinary life.

This opening is an important milestone as a basis for Glorious' bigger future development. After this successful opening in Vietnam, we confidently have an ambitious plan to open more and more Glorious Showrooms throughout many developed countries such as Cambodia, China, Taiwan, Russia, Canada, etc.

From today's success, many other missions and challenges are waiting for us, which means that we have to unstopably strengthen our skills and knowledge for meeting more and more future significant targets.

Activities of opening ceremony: Worshipping, Drinking Champagne, Cutting inauguration band,...

Speech from Mr. Kong Yuk Kan – General Director of Glorious about Showroom’s function and structure as well as our bigger development plans

Learning the special communication between the new technology and human

Showroom space overview for high-tech products display, for IT-ers connection, and for our green concept performance

Let's start our big missions from now on with enthusiasm, strength, and passion.
